

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. (Original) A filter comprising a body, an inlet for liquid passing into the body, an outlet for the liquid passing out of the body, and a foam material in the body for filtering the liquid as the liquid passes through the body and also for absorbing water in the liquid.
2. (Original) A filter according to claim 1 in which the foam material is a woven foam material.
3. (Currently amended) A filter according to claim 1 [[or claim 2]] in which the foam material is a polymer foam material.
4. (Currently amended) A filter according to [[any one of the preceding claims]] claim 1 in which the foam material is in pieces which are positioned in the body.
5. (Currently amended) A filter according to [[any one of claims 1-3]] claim 1 in which the foam material forms part of a cartridge which is positioned in the body.
6. (Original) A filter according to claim 5 in which the cartridge is a disposable cartridge.

7. (Currently amended) A filter according to claim 5 [[or claim 6]] in which the cartridge includes a support member for the foam material.
8. (Original) A filter according to claim 7 in which the support member has a plurality of apertures along its length for enabling the liquid to pass through the support member.
9. (Currently amended) A filter according to claim 7 [[or claim 8]] in which the foam material is positioned around the outside of the support member.
10. (Original) A filter according to claim 9 in which the foam material is in sheet form and is wrapped around the outside of the support member.
11. (Currently amended) A filter according to claim 7 [[or claim 8]] in which the foam material is positioned inside the support member.
12. (Original) A filter according to claim 11 in which the foam material is in sheet form or is in the form of pieces.
13. (Original) A filter according to claim 12 and including end screen members for retaining the foam material in the support member.

14. (Currently Amended) A filter according to [[any one of the preceding claims]] claim 1 and including a non-return valve.

15. (Original) A filter according to claim 14 in which the non-return valve is positioned in an end part of the filter.

16. (Currently amended) A filter according to [[any one of the preceding claims]] to claim 1 in which the outlet is an internally threaded outlet for enabling the filter to be a screw threaded connection to a circuit.
